

FIT5145: Assignment 4 Rubric

Friday, October 30, 2026, at 11:55 PM

There are three tasks (Tasks A, B, and C), along with an online interview, that you need to complete for this assignment. The tasks must be completed using Bash and R. Please refer to Moodle for the detailed task specifications.

General points:

- **Late submission:** Late submissions will have a **penalty of 5% per day**, including weekends and public holidays **for up to 7 days**. Assessment items handed in after 7 days will not be considered.
- **Wrong submission:** Failure to submit any required files will result in a loss of marks for the evaluation of those files. **If you submit an incorrect version of a required file, you may request a resubmission; however, a late submission penalty will apply to the entire assignment to ensure marking fairness and consistency.** Please ensure that you submit the correct versions of all required files!
- **Please do NOT zip your submission files:** Zip file submission will have a **penalty of 20%**.
- Assignment should be submitted in two files (PDF report and RMD file):
 - Failing to submit one of the two files will result in losing 20% of the total mark of this assignment.
 - An RMD file that generates errors when running will not be considered.
- **Drafts (not submitted):** Please make sure to submit your assignments that are in draft mode. We **will not accept** the assignments that are **not yet submitted**.
- If codes or code outputs are not included in pdf or if codes are provided as screenshots, marks will be deducted.
- **Acknowledgement of sources:** Plagiarism or unauthorised collaboration will result in an **automatic fail**.
- **Generative AI Use:** In this assessment, you can use generative artificial intelligence (AI) in order to search for R functions and examples to perform tasks that you specify only.

- **Total marks (40%): Written coding assignment (25%) + Online interview (15%)**

The written coding assignment (Tasks A, B, and C) is marked out of 55 and will be scaled to 25 marks. The online interview is worth an additional 15 marks, making the total assessment worth 40% of the unit.

Task A – Total 20 marks

	You are currently working in this range:	
Coding 80%	Some errors	Error free
Justify answers (if required) 20%	Correct answer, poor/no justification	Correct answer, strong justification

Task B – Total 20 marks

	You are currently working in this range:	
Coding 55%	Some errors	Error free
Visualisation 25%	Misleading	Correctly and clearly shows plus adding labelled axes
Justify answers (if required) 20%	Correct answer, poor/no justification	Correct answer, strong justification

Task C – Total 15 marks

	You are currently working in this range:	
Coding 60%	Some errors	Error free
Visualisation 10%	Misleading	Correctly and clearly shows plus adding labelled axes
Justify answers (if required) 30%	Correct answer, poor/no justification	Correct answer, strong justification
Note: For Task C – Q3, your F1 score will be ranked against all students' results. Marks will then be awarded based on the ranking categories: top 25%, top 50%, bottom 50%, and bottom 25%.		

Marks allocation for each question

Question	Marks
Task A	
Q1	5
Q2	3 (1, 1, and 1)
Q3	5 (3 and 2)
Q4	7 (2.5 and 4.5)
Total	20

Task B	
Q1	5
Q2	5
Q3	5
Q4	5
Total	20
Task D	
Q1	5
Q2	4
Q3	6
Total	15

- **Online interview (15%)**

- The interview will be approximately 10 minutes long, conducted online, and held in Week 14.
- The exact interview time for each student will be announced on the Ed Forum prior to the interview.
- Approximately 5 questions will be asked, covering Tasks A, B, and C but the number of questions might vary depending on the student's response and time remaining.
- Questions may focus on:
 - specific code you have written,
 - the approaches or methods you have used, and
 - concepts related to the assignment questions and your answers.
- Each interview question will be marked out of 10. The marks will be averaged and then scaled to 15 marks.
- If you have not completed a particular task (Task A, B, or C), any interview question related to that task will be awarded 0 marks.
